The Architecture of the Well-Tempered Environment: Banham

...

Description. The Architecture of the Well-Tempered Environment presents the fundamental aspects of the architecture of the well-tempered environment. This book considers what architects had taken to be the proper use and exploitation of mechanical environmental controls, and shows how this had manifested itself in the design of their buildings.

The Architecture of Well-Tempered Environment (1969)
follows Giedion's Mechanization Takes Command (1948),
putting the development of technologies such as electricity
and air conditioning ahead of the classic account of
structures. In the 1960s, Cedric Price, Peter Cook, and the
Archigram group also found this to be an absorbing arena of
thought.
