Reading Song Lyrics offers the first systematic introduction to lyrics as a vibrant genre of (performed) literature. It takes lyrics seriously as a complex form of verbal art that has been unjustly neglected in literary, music, and, to a lesser degree, cultural studies, partly as it cuts squarely across

institutional boundaries. The first part of this book accordingly introduces a thoroughly transdisciplinary interpretive framework. It outlines theoretical approaches to issues such as performance and performativity, generic convention and cultural capital, sound and songfulness, mediality and musical multimedia, and step by step applies them to the example of a single song. The second part then offers three extended case studies which showcase the larger cultural and historical viability of this model. Probing into the relationship between lyrics and the ambivalent performance of national culture in Britain, it offers exemplary readings of a highly subversive 1597 ayre by John Dowland, of an 1811 broadside ballad about Sara Baartman, 'The Hottentot Venus', and of a 2000 song by 'jungle punk' collective Asian Dub Foundation. Reading Song Lyrics demonstrates how and why song lyrics matter as a paradigmatic art form in the culture of modernity.

This volume cross-examines mainstream approaches to studying legal culture (e.g. those of Friedman and Blankenburg). It includes debates over the concept of legal culture and a variety of case studies of different legal cultures.

The definitive survey of the literary and artistic aspects of surrealism.

Walter of Châtillon's Latin epic on the life of Alexander the Great was a twelfth- and thirteenth-century "best-seller:" scribes produced over two hundred manuscripts. The poem follows Alexander from his first successes in Asia Minor, through his conquest of Persia and India, to his progressive moral degeneration and his poisoning by a disaffected lieutenant. The *Alexandreis* exemplifies twelfth-century discourses of world domination and the exoticism of the East. But at the same time it calls such dreams of mastery into question, repeatedly undercutting as it does Alexander's claims to heroism and virtue and by extension, similar claims by the great men of Walter's own generation. This extraordinarily layered and subtle poem stands as a high-water mark of the medieval tradition of Latin narrative literature. Along with David Townsend's revised translation, this edition provides a rich selection of historical documents, including other writings by Walter of Châtillon, excerpts from other medieval Latin epics, and contemporary accounts of the foreign and "exotic."
