CONSIGLI D'AMORE 1. Nessuno sa che sono io l'Oracolo degli appuntamenti, per tutti sono semplicemente Kayla e preferisco così. Anche perché, diciamo, chi si fiderebbe dei consigli d'amore di una che ha avuto solo due appuntamenti nella vita? Temo che, sapendolo, tutti i miei clienti scapperebbero a gambe levate! Eppure, io sono convinta che siano stati quei due appuntamenti ad aprirmi gli occhi sull'amore, al punto che li ho archiviati sotto i nomi di Caso Studio 1 e 2, e poi è stato grazie a loro che ho scoperto il mio talento di oracolo... Ora do consigli d'amore in rete e ho messo in stand by il mio cuore: i ragazzi del liceo sono troppo immaturi per me, ho deciso che è meglio aspettare il college per innamorarmi davvero. A meno che non capiti dalle mie parti qualcuno per cui vale davvero la pena rischiare... Lui: capelli neri quasi corvini e occhi azzurri Lei: capelli castani (lei li definisce "color frumento integrale") e occhi nocciola.

In this new collection of essays, Andrew Feenberg argues that conflicts over the design and organization of the technical systems that structure our society shape deep choices for the future. A pioneer in the philosophy of technology, Feenberg demonstrates the continuing vitality of the critical theory of the Frankfurt School. He calls into question the anti-technological stance commonly associated with its theoretical legacy and argues that technology contains potentialities that could be developed as the basis for an alternative form of modern society. Feenberg's critical reflections on the ideas of Jürgen Habermas, Herbert Marcuse, Jean-François Lyotard, and Kitaro Nishida shed new light on the philosophical study of technology and modernity. He contests the prevalent conception of technology as an unstoppable force responsive only to its own internal dynamic and politicizes the discussion of its social and cultural construction. This argument is substantiated in a series of compelling and well-grounded case studies. Through his exploration of science fiction and film, AIDS research, the French experience with the "information superhighway," and the Japanese reception of Western values, he demonstrates how technology, when subjected to public pressure and debate, can incorporate ethical and aesthetic values.

This is the first comprehensive account of the diversity and complexity of censorship practices in Italy under the Fascist dictatorship. Through archival material it shows how practices of censorship were used to effect regime change, to measure and to shape public opinion, behaviour and attitudes in the twenty years of Mussolini's dictatorship.

This book explores the relationship between the city of Rome and the Aurelian Wall during the six centuries following its construction in the 270s AD, a period when the city changed and contracted almost beyond recognition, as it evolved from imperial capital into the spiritual center of Western Christendom. The Wall became the single most prominent feature in the urban landscape, a dominating presence which came bodily to incarnate the political, legal, administrative, and religious boundaries of urbs Roma, even as it reshaped both the physical contours of the city as a whole and the mental geographies of 'Rome' that prevailed at home and throughout the known world. With the passage of time, the circuit took on a life of its own as the embodiment of Rome's past greatness, a cultural and architectural legacy that dwarfed the quotidian realities of the post-imperial city as much as it shaped them.

Polybius and his World honours F. W. Walbank's achievement by bringing together a number of leading scholars in the fields of Hellenistic historiography and history.

A new crime series full of Italian flavor—the first novel in the Inspector Bordelli series, set in 1960s Florence—Florence, summer 1963. Inspector Bordelli is one of the few policemen left in the deserted city. He spends his days on routine work and his nights tormented by the heat and mosquitoes. Suddenly one night, a telephone call gives him a new sense of purpose: the suspected death of a wealthy signora. Bordelli rushes to her hilltop villa and picks the locks. The old woman is lying on her bed—apparently killed by an asthma attack, though her medicine has been left untouched. With the help of his young protégé, the victim's eccentric brother, and a semi-retired petty thief, the inspector begins a murder investigation. Each suspect has a solid alibi, but there is something that doesn't quite add up. . .
