Learn the pros and the cons of the most frequently used distros in order to find the one that is right for you. You will explore each distro step by step, so that you don't have to endure hours of web surfing, countless downloads, becoming confused by new concepts and, in the worst cases, reading complex and marathon installation guides. You will benefit from the author's long-term experience working with each distro hands on, enabling you to choose the best distro for your long-term needs. The first barrier that a new Linux user has to face is the overwhelming number of "flavors" that this operating system has. These "flavors" are commonly known as distros (from distribution), and to date there are more than three hundred active distros to choose from. So, how to choose one? You can choose the most popular at the moment, or take heed of what your friend says, but are you sure that this is the one that you need? Making the wrong decision on this matter is behind a good number of disappointments with this operating system. You need to choose the distro that is right for you and your needs. Linux offers us a wonderful open source alternative to proprietary software. With *Introducing Linux Distros* you can decide how to best make it work for you. Start exploring the open source world today. What You'll learn Review what a Linux distro is and which one to select Decide which criteria to follow to make a right decision Examine the most used Linux distros and their unique philosophies install and maintain different Linux distros Who This Book Is For Newcomers to the Linux world that have to deal with the myriad of distributions.

World competition in the 21st century will revolve around competition for intellectual property rights (IPRs). But what are these rights that you can ' t see — the Invisible Gold of today ' s Knowledge Economy. What can you do with them and how can Asian businesses foster the innovation and creativity they protect? From the patents protecting Creative Technology ' s MP3 player and Tata ' s ‘ Nano ’ car to ‘ Tsingtao ’ and ‘ Singha ’ branded beer, IPRs protect this Invisible Gold. David Llewelyn challenges Asian businesses to build up their reserves of Invisible Gold and governments to build a culture that encourages and rewards innovation and creativity. Using Asian examples throughout, David Llewelyn explains what the rights are, answers the questions and sheds much-needed light on this crucial

but little-understood part of doing business in the 21st century.

In the year 2204, tragedy and terror forced a scientific team to prematurely evacuate Maleiva III. Nineteen years later, a rogue moon hurtling through space is about to obliterate the last opportunity to study this rare, life-supporting planet. With less than three weeks left before the disaster, superluminal pilot Priscilla "Hutch" Hutchins -- the only even remotely qualified professional within lightyears of the ill-fated planet -- must lead a small scientific team to the surface to glean whatever they can about its lifeforms and lost civilizations before time runs out. But catastrophe awaits when they are stranded on this strange and complex world of puzzles and impossibilities. And now Hutch and her people must somehow survive on a hostile world going rapidly mad -- as the clock ticks toward apocalypse for a doomed enigma now called...
