A scintillating biographical study of the one of the greatest philosophers of the nineteenth century, by one of the bestselling writers of the twentieth. In this vivid biography, Zweig eschews traditional academic discussion and focuses on Nietzsche's habits, passions and obsessions. This work, concentrating on the man rather than the work, on the tragedy of his existence and his apartness from the world in which he moved in enforced isolation, is a tour de force, drawing the reader inexorably into Nietzsche's tragic trajectory. Illustrated with numerous photographs relating to Nietzsche and his European locations, this superb translation by Will Stone is essential reading for anyone interested in Nietzsche, Zweig, first-class biographies and philosophy.

The Struggle with the Daemon is a brilliant analysis of the European psyche by the great novelist and biographer Stefan Zweig. Zweig studies three giants of German literature and thought: Friedrich Holderlin, Heinrich von Kleist and Friedrich Nietzsche – powerful minds whose ideas were at odds with the scientific positivism of their age; troubled spirits whose intoxicating passions drove them mad but inspired them to great works. In their struggle with their inner creative force, Zweig reflects the conflict at the heart of the European soul – between science and art, reason and inspiration. Both highly personal and philosophically wide-ranging, this is one of the most fascinating of Zweig 's renowned biographical studies. From the Trade Paperback edition.

This is the second volume in a trilogy in which Stefan Zweig builds a composite picture of the European mind through intellectual portraits selected from among its most representative and influential figures. In 'Holderlin, Kleist, and Nietzsche', Zweig concentrates on three giants of German literature to portray the artist and thinker as a figure possessed by a powerful inner vision at odds with the materialism and scientific positivism of his time. In this case, the nineteenth century, Zweig's subjects here are respectively a lyric poet, a dramatist and writer of novellas, and a philosopher. Each led an unstable life ending in madness and/or suicide and not until the twentieth century did each make their full impact. Whereas the nineteenth-century novel is socially capacious in terms of subject and audience, the three figures treated here are prophets or forerunners of modernist ideas of alienation and exile. Holderlin and Kleist consciously opposed the worldly harmoniousness of Goethe's classicism in favor of a visionary inwardness and dramatisation of the subjective psyche. Nietzsche set himself as a destroyer and builder of philosophy and critic of the degradation of the German spirit through nationalism and militarism. Zweig's choice of subjects reflects a division in his own soul. The image of Goethe recurs here as the ultimate upholder of Zweig's own ideals: scientist and artist, receptive to world culture, supremely rational and prudent. Yet Zweig was aware that Holderlin, Kleist, and Nietzsche were more daring explorers of the dangerous and destructive aspects of man that needed to be seen and comprehended in the clarifying light of poetry and philosophy.

Stefan Zweig 's literary portraits of three tormented giants of German literature: Friedrich H ö lderlin, Heinrich von Kleist, and Friedrich Nietzsche, contrasts them with Goethe who was anchored in place by profession, home and family. For Zweig, " everyone whose nature excels the commonplace, everyone whose impulses are creative, wrestles inevitably with his daemon " which Zweig describes as " the incorporation of that tormenting heaven which impels our being ... towards danger, immoderation, ecstasy, renunciation and even self-destruction. " In these essays, Zweig depicts the tragic and sublime lifelong struggle by three great creative minds with their respective daemons.

A collection of the great writer's observations, made during his travels across the Europe he loved so much When I am on a journey, all ties suddenly fall away. I feel myself quite unburdened, disconnected, free - There is something in it marvellously uplifting and invigorating. Whole past epochs suddenly return: nothing is lost, everything still full of inception, enticement. For the insatiably curious and ardent Europhile Stefan Zweig, travel was both a necessary cultural education and a personal balm for the depression he experienced when rooted in one place for too long. He spent much of his life weaving between the countries of Europe, visiting authors and friends, exploring the continent in the heyday of international rail travel. Comprising a lifetime's observations on Zweig's travels in Europe, this collection can be dipped into or savoured at length, and paints a rich and sensitive picture of Europe before the Second World War.

Argues that Nietzsche tried to create a specific literary character in his writings and discusses the paradoxes of his work

'I alone know that I am only just beginning to live.' He is distinguished, rich, a member of fashionable society-utterly bored. But, over the course of one fantastic night, a young Baron becomes a thief, unashamed, and awakes to life for the first time. This collection is full of tales of infinite passions, of intense encounters that transform lives, a knock on a door that forces a whole community to take flight, a doomed attempt to save a soul poisoned by addiction, a love soured into awful cruelty, of longing and liberation. They are the gripping work of a master storyteller, unmatched and completely unforgettable.

This is the story of about the strangest thing that I've ever encountered, old art dealer that I am.' It is perhaps the finest art collection of its kind, acquired through a lifetime of sacrifice - but when a dealer comes to see it, he finds something quite unexpected, and is drawn into a peculiar deception of the collector himself... Stefan Zweig was a wildly popular writer of compelling short fiction: in this collection there are peaks of extraordinary emotion, stories of all that is human crushed by the movements of history, of letters that fill a young heart or drive a person towards death, of obsession and desire. They will stay with the reader for ever.

Stefan Zweig was a leading talisman of a united Europe of unfettered movement, of pro-active cultural exchange, humane decency and tolerance, all polar opposites of the Nationalist regimes he loathed, and which came to power in the 1930s. In these poignant essays and addresses, forged in the last years or even months of his life, he shows his profound concern for and dedication to the survival of Europe's spiritual integrity. These essays form the natural accompaniment to Zweig's renowned memoir The World of Yesterday, registering the same themes and evoking the same nostalgia for a world brutally consigned to history. They can be seen as a vital addendum to that major work or as a prefiguration. But perhaps even more so than the prose of the memoir, these essays, few in number but rich in content, reveal the essence of Zweig's thought.
