Robotics: Modelling, Planning and Control : Advanced Textbooks in Control and Signal Processing. This book is the natural evolution of the previous text Modelling and Control of Robot Manipulators by the first two co-authors, published in 1995, and in 2000 with its second edition. The cut of the original textbook has been confirmed with the educational goal of blending the fundamental and technological aspects with those advanced aspects, on a uniform track as regards arigorous formalism.
