Social Psychology Questions and Answers | Study.com
Social psychology research suggests that Jessica is
more likely to get help in rural Wyoming because of the
bystander effect. People are less likely to offer help to
someone who needs it if other people are also present,
and the probability that a person will receive help
decreases as the number of people present increases.

Social Psychology: Review Questions | SparkNotes
Psychology is the study of people – what they do, think, perceive and feel. It helps us to answer many important questions about society by applying scientific principles to human behaviour. Our Social Psychology degree trains you in experimental methodology and emphasises the practical value of psychology when applied to issues and problems of human social relationships.

actions of people in social situations or, conversely, the influence of others on those thoughts, feelings, and actions. Social psychology deals with group behavior as well as the behavior of individuals within groups. Attitudes are lasting patterns of beliefs and opinions which predispose reactions to objects, events, and people.
