Economic collapse, poverty, disease, natural disasters, the constant threat of community unrest and international terrorism--a quick look at any newspaper is enough to cause almost anyone to feel trapped and desperate. Yet the recent election also revealed a growing search for hope spreading through society. In the timely *Hope in the Age of Anxiety*, Anthony Scioli and Henry Biller illuminate the nature of hope and offer a multitude of techniques designed to improve the lives of individuals, and bring more light

into the world. In this fascinating and humane book, Scioli and Biller reveal the ways in which human beings acquire and make use of hope. Hope in the Age of Anxiety is meant to be a definitive guide. The evolutionary, biological, and cultural roots of hope are covered along with the seven kinds of hope found in the world's religions. Just as vital, the book provides many personal tools for addressing the major challenges of the human condition: fear, loss, illness, and death. Some of the key areas illuminated in Hope in the Age of Anxiety: How do you build and sustain hope in trying times? How can hope help you to achieve your life goals? How can hope improve your relationships with others? How can hope aid your recovery from trauma or illness? How does hope relate to spirituality? Hope in the Age of Anxiety identifies the skills needed to cultivate hope, and offers suggestions for using these capacities to realize your life goals, support health and healing, strengthen relationships, enhance spirituality, and inoculate yourself against the despair that engulfs many individuals.

Livy (c. 59 BC-AD 17) dedicated most of his life to writing some 142 volumes of history, the first five of which comprise The Early History of Rome. With stylistic brilliance, he chronicles nearly 400 years of history, from the founding of Rome (traditionally dated to 757 BC) to the Gallic invasion in 386 BC - an era which witnessed the reign of seven kings, the establishment of the Republic, civil strife and brutal conflict. Bringing compelling characters to life, and re-presenting familiar tales - including the tragedy of Coriolanus and the story of Romulus and Remus - The Early History is a truly epic work, and a passionate warning that Rome should learn from its history.

Popular culture often champions freedom as the fundamentally American way of life and celebrates the virtues of independence and self-reliance. But film and television have also explored the tension

between freedom and other core values, such as order and political stability. What may look like healthy, productive, and creative freedom from one point of view may look like chaos, anarchy, and a source of destructive conflict from another. Film and television continually pose the question: Can Americans deal with their problems on their own, or must they rely on political elites to manage their lives? In this groundbreaking work, Paul A. Cantor explores the ways in which television shows such as *Star Trek*, *The X-Files*, *South Park*, and *Deadwood* and films such as *The Aviator* and *Mars Attacks!* have portrayed both top-down and bottom-up models of order. Drawing on the works of John Locke, Adam Smith, Alexis de Tocqueville, and other proponents of freedom, Cantor contrasts the classical liberal vision of America—particularly its emphasis on the virtues of spontaneous order—with the Marxist understanding of the "culture industry" and the Hobbesian model of absolute state control. *The Invisible Hand in Popular Culture* concludes with a discussion of the impact of 9/11 on film and television, and the new anxieties emerging in contemporary alien-invasion narratives: the fear of a global technocracy that seeks to destroy the nuclear family, religious faith, local government, and other traditional bulwarks against the absolute state.

"From the Bible through Dante and up to Treblinka and Guantánamo Bay, here is a rich source for nightmares." --The New York Times Book Review Three thousand years of visions of Hell, from the ancient Near East to modern America From the Hebrew Bible's shadowy realm of Sheol to twenty-first-century visions of Hell on earth, *The Penguin Book of Hell* takes us through three thousand years of eternal damnation. Along the way, you'll take a ferry ride with Aeneas to Hades, across the river Acheron; meet the Devil as imagined by a twelfth-century Irish monk--a monster with a thousand giant hands; wander the nine circles of Hell in Dante's *Inferno*, in which gluttons, liars, heretics, murderers,

and hypocrites are made to endure crime-appropriate torture; and witness the debates that raged in Victorian England when new scientific advances cast doubt on the idea of an eternal hereafter. Drawing upon religious poetry, epics, theological treatises, stories of miracles, and accounts of saints' lives, this fascinating volume of hellscapes illuminates how Hell has long haunted us, in both life and death.

For Raman the sign painter, life is a familiar and satisfying routine. A man of simple, rational ways, he lives with his pious aunt and prides himself on his creative work. But all that changes when he meets Daisy, a thrillingly independent young woman who wishes to bring birth control to the area. Hired to create signs for her clinics, Raman finds himself smitten by a love he cannot understand, much less avoid-and soon realizes that life isn't so routine anymore. Set in R. K. Narayan's fictional city of Malgudi, *The Painter of Signs* is a wry, bittersweet treasure.

Widely acknowledged as a contemporary classic that has introduced thousands of readers to American literature, *From Puritanism to Postmodernism: A History of American Literature* brilliantly charts the fascinating story of American literature from the Puritan legacy to the advent of postmodernism. From realism and romanticism to modernism and postmodernism it examines and reflects on the work of a rich panoply of writers, including Poe, Melville, Fitzgerald, Pound, Wallace Stevens, Gwendolyn Brooks and Thomas Pynchon. Characterised throughout by a vibrant and engaging style it is a superb introduction to American literature, placing it thoughtfully in its rich social, ideological and historical context. A tour de force of both literary and historical writing, this Routledge Classics edition includes a

new preface by co-author Richard Ruland, a new foreword by Linda Wagner-Martin and a fascinating interview with Richard Ruland, in which he reflects on the nature of American fiction and his collaboration with Malclolm Bradbury. It is published here for the first time.

Butterflies of the Kruger National Park and Surrounds enables identification of these colourful creatures and hopes to promote general interest in the natural world. A lavish and fascinating introduction raises topics such as classification of Lepidoptera, butterfly behavior, names, biology and life cycle, flower adaptations, larval host plants, etc. Each family is first described, then the subfamily, followed by the genus and finally the species. Each of the known KNP butterfly species is dealt with on its own page, with its common and scientific names, life history, etymology and larval host plants. On the opposite page is a gallery of photographs of the butterfly in its environment, often complemented with life cycle and larval host plant photographs. A distribution map is provided for each butterfly species, with red dots indicating KNP rest camps where the butterfly is found, and a pie chart showing the butterfly's status – how rare or how common it is.

'But I, while vineyards ring with the cicadas' scream, Retrace your steps, alone, beneath the burning sun.' Virgil's lyrical, wistful and often witty pastoral poems.
